

Helping all people
live healthy lives

BD™ Pharmacy Products
Optimal efficiency for today's world.

A partner that works with you.

As a pharmacist, your role in meeting today's pharmaceutical challenges is increasingly critical.

BD Pharmacy products are designed to enhance the medication preparation and delivery process.

Partnering with BD can help speed your work and ease your inventory problems, while you pass on the resulting efficiencies and savings.

BD™ Filter Needles and BD Nokor™ Needles

Reduce glass particles when preparing medications from ampoules.

BD Filter Needles feature a molded-in 5 Micron filter membrane that reduces larger particulates when aspirating, reconstituting and transferring fluids or when withdrawing medication from glass reservoirs.¹

BD™ Filter Needles

Catalog #	Description

Thin Wall 5 Micron with BD Nokor™ point

305201	18 G 1 1/2"
--------	-------------

The BD Nokor needle design features a cannula side port to place fluid on the side wall of a container during reconstitution. Some drug manufacturers recommend this to help reduce foaming or spray of powdered medication.

- BD Nokor design eliminates clogged cannula, retaining venting capability
- Vented needles available, designed to reduce internal container pressure

BD™ Blunt Fill and BD™ Blunt Filter Needles

Lower cost, reduced risk.

BD Blunt Fill and BD Blunt Filter Needles address a wide range of your medication preparation needs. A complement to the full line of BD products, the BD Blunt Fill Needle family provides a substitute for a conventional needle.

The BD Blunt Needle family provides:

- SKU reduction in conventional needles used for preparation
- A lower cost alternative than sharps safety-engineered devices, while removing the need for conventional needles
- Regular and filter needle versions

305618	30 mL Syringe
309680	60 mL Syringe

BD™ Tip Cap Tray

Enhanced productivity, reduced waste.

The BD Tip Cap Tray features latex-free caps packaged for ease of application and designed to minimize touch-contamination risk. Tray packaging reduces waste compared to single-sterile caps.

BD™ Tip Cap Tray

Catalog #	Description
308341	Luer Tip Cap (Tray of 10)
305822	Luer Tip Cap (Tray of 50)

BD™ Oral Syringe System

Recommended for oral medications for patient safety.

BD offers a broad range of syringes and accessories for oral medication administration. Both clear and amber syringes feature mL and teaspoon scale markings for accuracy. The amber syringes meet USP requirements for photo-sensitive medications.²

BD Luer-Lok™ 1 mL Syringe

Security in critical applications.

The BD Luer-Lok 1 mL Syringe is ideal for critical clinical applications where avoiding potential needle disengagement, medication leakage, spray or tubing disconnect is crucial.

- Integral Luer-Lok hub assures secure connection to needles or IV ports
- Crystal-clear polycarbonate barrel
- Readily visible fluid level

BD Luer-Lok™ 1 mL Syringe	
Catalog #	Description
1 mL Luer-Lok™ Syringe (mL Scale)	
309628	1 mL Syringe Only
309637	1 mL Syringe Combo with 20 G 1" Needle
Luer-Lok™ U-100 Insulin Scale	
309629	1 mL Syringe Only

BD Cornwall™ Disposable Syringe System

Comfortable, convenient fluid dispensing.

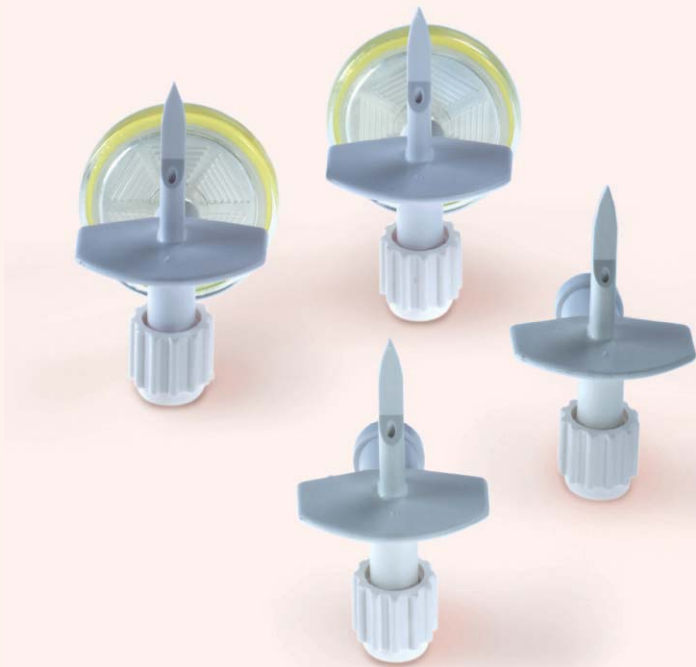

The BD Cornwall Disposable Syringe System offers a user-friendly design for fluid transfer – without the capital investment required for filling pumps. Optional syringe-filling connectors allow fluid transfer to a wide variety of reservoirs, including vials, syringes and oral medication containers.

BD Cornwall™ Disposable Syringe System

Catalog #	Description
305224	10 mL Fluid BD Cornwall Dispensing Syringe
305225	Syringe Tip Connector
305223	Oral Syringe Tip Connector
305222	Bottle Adapter

BD™ Dispensing Pins

BD Dispensing Pins are designed to facilitate medication transfer between reservoirs without a needle.

BD™ Dispensing Pins

Catalog #	Description
305263	Sure-Med Dispensing Pin (0.45 Micron Filter)
305264	Safety-Med Chemotherapy Dispensing Pin (0.22 Micron Filter)

BD PosiFlush™ Pre-Filled Syringes

A unique alternative.

BD PosiFlush Pre-Filled Syringes are fully integrated systems designed to strengthen your IV site maintenance practices by providing convenient, reliable and cost-effective alternatives to vial-based systems.

- Syringes are preservative-free, with sterile contents and fluid pathway³
- Easy identification of syringe contents, with color-coded syringes and shelf cartons
- Increased patient safety with lower injection pressures in 10 mL diameter syringes⁴
- Compatible with all needleless IV access systems
